Utzon-Can Lis

Drawing upon the life and philosophy of Jørn Utzon, the Ferm Living x Utzon – Can Lis Collection pays homage to an architect whose work transcended conventional boundaries, exploring the relationship between architecture and place. In collaboration with the Utzon Centre, a cultural institution dedicated to preserving Utzon's legacy, the collection highlights a shared vision of transforming architectural principles into contemporary design.

Connecting corner module - S200

Connecting corner module - L200

Catena Sofa
- Armrest End Module
Design by Ferm Living

Product details
Provided with connection system to link modules together
Manufactured in Italy

Module numbers
Armrest End Module - Small - Left - S400
Armrest End Module - Small - Right - S401
Armrest End Module - Large - Left - L400
Armrest End Module - Large - Right - L401

Dimensions
Armrest End Module - Small
Height: 76 cm / 30 in
Width: 120 cm / 47.2 in
Depth: 95 cm / 37 in
Seat height: 42 cm / 16.5 in
Seat depth: 70 cm / 27.6 in
Backrest height: 34 cm / 13.4 in
Weight: 40 kg / 88.2 lb

Armrest End Module -Large
Height: 76 cm / 30 in
Width: 138 cm / 54.3 in
Depth: 108 cm / 42.5 in
Seat height: 42 cm / 16.5 in
Seat depth: 78 cm / 30.7 in
Backrest height: 34 cm / 13.4 in
Weight: 47 kg / 103.6 lb

Materials and construction
Removable cover. High-density cold foam covered with soft padding for extra comfort on inner wooden structure. The construction ensures excellent comfort, low distortion, high resistance to tears and tensile force, as well as outstanding breathability. Feet: Black polypropylene. FSC™ Mix certified wood

Care

Catena Modular Sofa

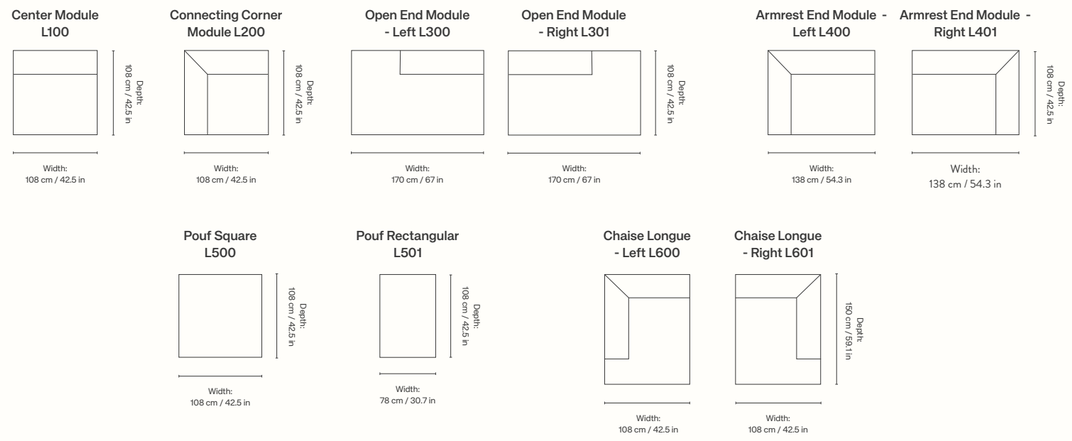

The embracing, beanbag-inspired shape of our low-slung Catena sofa is generously dimensioned for all-out relaxation and cosiness: we call it low living. Distinguished by soft curves and top-stitched seams, the homely, module-based designs are made with innovative microcellular foam that ensures maximum comfort as well as durability. The series comprises twenty individual modules that can be combined in multiple ways to create the desired expression.

Designed with the needs of the modern consumer in mind, the sofa now features a convenient, removeable cover, which can be easily removed for cleaning. Discrete Velcro fastenings underneath the sofa hold the cover neatly in place. Additionally, the inner structure of the Catena sofa is constructed with FSC™ certified wood.

Dase Modular Sofa

The Dase Sofa is a modular system designed with comfort and versatility in mind. This sofa offers enough space for resting, lounging, conversing and cuddling, making it ideal for both formal and informal settings. The sofa's design is highlighted by an upholstered backrest that gracefully follows the sofa's contours, accentuating its contemporary silhouette. Choose between matching upholstered legs for a cohesive look or dark-stained wood legs for a more subtle elegance. Both leg styles are included when purchasing a sofa.

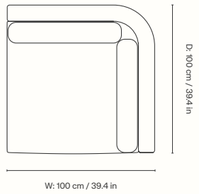

With a commitment to responsible production, the wooden structure of the Dase Sofa is FSC™ certified. As a part of our Made to Order customisation concept, the upholstery for this item can be selected from a range of high-quality fabrics in different colours and patterns to create your custom piece of furniture.

Rugs

The Ferm Living rug collection comprises organic forms and vibrant hues that merge with enduring design. From sleek monochromatic rectangles to sculptural patterns inspired by the shifting contours of desert sand dunes, each rug adds warmth, texture, and a sense of harmony, turning your home into a tranquil sanctuary.

A Better Tomorrow

At Ferm Living, we believe good design goes beyond form and function: it carries a responsibility. We take a holistic and proactive approach to sustainability across every part of our business, guided by our nine 2030 Commitments within Our Planet, Our Society and Our Community. Transparency is key to our progress and we are dedicated to sharing our journey openly. As the world evolves, so do our goals, continuously pushing us towards a more responsible future. But true change is a collective effort. By fostering partnerships, driving conversations and inspiring action, we contribute to a global movement for a better tomorrow.

Certifications and Testing
We are deeply committed to environmental and social responsibility in all aspects of our business and work with certifications and testing to ensure safe and fair working conditions in our supply chain and the responsible production of high-quality products.

We have created an internal framework entitled 'Responsible Suppliers'. To be classified a responsible supplier, ours must adhere to initiatives and certifications like BSCI, SA 8000, FSC™, GOTS or GRS, reflecting their dedication to aligning with our mission of promoting responsible practices and ensuring stringent criteria for human rights and fair working conditions are met.

Our products undergo risk assessment and rigorous testing in accredited laboratories, and we comply with applicable national and international regulations and standards such as REACH for environmental and health requirements.

To stay ahead of upcoming legislation, we're replacing our "RESPONSIBLE" tag with "CERTIFIED." This to ensures we comply with new regulations.

CERTIFIED **What does our 'CERTIFIED' tag mean?**
The "CERTIFIED" tag guarantees that the product meets verified environmental or social criteria across our entire supply chain, giving you greater transparency and credibility in your choices. When you see the 'CERTIFIED' tag, it means the product is either FSC™-, GOTS-, GRS - or OSC 100-/ Organic blended-certified. This guarantees higher transparency and credibility, as each link in the supply chain must meet certification requirements. Certifications supports our sustainable growth and transparency, and by choosing 'CERTIFIED' , you're making a more responsible choice for both people and the planet.

Our current initiatives and certifications:

GRS, the Global Recycled Standard
An internationally recognised certification, GRS verifies products are made with recycled materials, ensuring compliance with strict environmental, social and chemical standards across the supply chain. It promotes transparency and responsible practices, confirming that recycled content is traceable and ethically sourced - from the initial recycling phase to the final product.

GOTS, the Global Organic Textile Standard
Recognised as the world's leading processing standard for textiles made from organic fibres. It defines high-level environmental and social criteria along the entire organic textiles supply chain.

OCS, the Organic Content Standard
Products certified to the OCS contain organically grown content/ material that has been independently verified at each stage of the supply chain, from source to final product.

FSC™, The Forest Stewardship Council™
An international, non-profit certification scheme for wood and paper. In FSC forestry, animals and plant life are protected and no more wood is felled than the forest can reproduce, either through natural regeneration or replanting. At the same time, the FSC ensures that workers' rights throughout the certified supply chain are respected. Look for our FSC™ certified products on our website.

NORDIC SWAN ECOLABEL
A Nordic Swan Ecolabel candle is a candle meeting specific criteria for environmental performance as well as health aspects, quality and safety.

BSCI, the Business Social Compliance Initiative
An industry-driven initiative by Amfori, which aims to monitor and assess workplace standards across global supply chains. An Amfori BSCI audit helps us to ensure that suppliers treat their workers legally and ethically.

UN Global Compact
We are engaged participants in the UN Global Compact and our Code of Conduct aligns with their Ten Principles. This code establishes the ethical framework for our business and is endorsed by all our partners and suppliers. Its principles aim tosafeguard the health and safety of workers during production, fostering an ethical and equitable partnership for all stakeholders.

Our Code of Conduct is available at fermliving.com.

We work for a better tomorrow
We remain dedicated to sustainable practices and are working to bring more products under certification schemes and integrate certified materials and circular practices into future designs.
Certification supports our sustainable growth and transparency and demonstrates our commitment to quality and ethics.
